Chester

So....

- Think carefully about what you might like to do – you don't have to have an exact career in mind, but there might be a subject area that you like.
- If you have a job in mind, find out what qualifications you need.
- If you're unsure, stick with what you enjoy and what you're good at.
- Carry out a little bit of research, so that you can make the right choices for **you**.
